

Please provide the information requested as part of your application. Use the [GTFR Guidelines on the SC&I Research Page](#). (Please download the form, fill out the information, and add it as an attachment to the GTFR application.)

PROJECT GOALS should include objectives, intellectual merit, and broader impacts. **No more than 500 words.**

- Please succinctly explain the project's goal and the specific objectives to be achieved.
- Provide a rationale about how the proposed project advances the purpose of the GTFR and the specific award sought. Please see the GTFR guidelines.
- Include in the rationale an explanation of the intellectual merit of the proposed project for scholarship within and across the fields of communication, information, and media, along with any anticipated broader impacts.

PROJECT PLAN should include the plan for achieving the project's goals and objectives. Please include descriptions of the specific activities and the resources for each activity (e.g., personnel, equipment, services). Make sure you note each team member's contribution to the activities. **No more than 700 words.**

- Explain the plan for achieving the project's goal and its specific objectives.
- Include descriptions of the specific activities for reaching the project's objectives and the resources each activity requires (e.g., personnel, equipment, services).
- Note the contribution each team member will make to specific activities.

PROJECT BUDGET should summarize the funding request by listing the resources to achieve the project goals and objectives. Indicate the categories, cost, and how this cost was calculated. **No more than 500 words.**

- Summarize the funding request by listing the resources needed to achieve the project's goals and objectives and indicating the cost of those resources (and how this cost was calculated).
- Resource categories could include the following, but not all categories are necessarily relevant to the proposed project:
 - Salary (Student Hourly Work, no fringe; No PI or Co-PI salaries or course-buyouts, and none for co-investigators outside of SC&I).
 - Supplies (e.g., equipment, software)
 - Travel
 - Professional Services
 - Other Services (e.g., honoraria, human subject payments)
